In accordance with Article 25 of the Decree of 25 May 2016, updated by the Decree of 26 August 2022, establishing the national framework for training and the procedures leading to the award of the national thesis diploma, the University of Toulouse Capitole has opted for the electronic submission and dissemination of thesis documents. The version presented during the oral defense complies with the original version.

The University is subject to the obligation to deposit doctoral theses in the STAR application (Electronic thesis reporting, archiving and research). The thesis is reported in the SUDOC catalogue, from www.theses.fr, and in the local Archipel catalogue, as well as in the portals for reporting and disseminating theses, which can be consulted freely on the Internet and indexed by search engines. This description applies to all theses, including confidential theses.

The publication of the thesis on the Internet with free access is subject to the author's permission. If the author has not given his authorization for a publication on the Internet, and unless there is a confidentiality clause, the thesis will be accessible only from the institutional open archive «[Toulouse Capitole Publications](#)» and only accessible, with limited access, after authentication by members of the university community.

This authorization of publication is not exclusive. The author reserves the right to a simultaneous publication of the thesis by the means and under the conditions of his choice.

The author may, at any time, request the modification of the mode of distribution of his work, by email, to the address: bu-theses@ut-capitole.fr
